

Dear Members,

As mentioned prior, there were two major updates announced:

1. Golf Australia's transitions from Golf Link to Golf Australia Connect.
2. Cabramatta Golf Club introduction of MiScore.

The Golf Australia's transitions from Golf Link to Golf Australia Connect is happening now and we are all excited to reap the benefits. The powers to be are feverishly beaver away to get the platform ready for use and I for one am keen to see what new capabilities await the everyday Australian golfer.

Cabramatta Golf Club introduction of MiClub has been paused. This decision was made as a result of the introduction of Golf Australia Connect. We intend to review the new features and capabilities available via Golf Australia Connect and assess if they meet our needs. We envisage a six month review period with a final decision on the MiClub project to be handed down around 31st March 2026.

In the meantime, if you are interested in a trial period for Golf Australia Connect, please reply to this note or contact info@cabragolf.com.au expressing your interest and we will contact you with next steps.

Regards
Cabramatta Golf Club
